Sources of Information

Integrated Social Crime Prevention Strategy

British Columbia's Safe Communities Kit

NICRO Research Documents

The Safe Community Toolbox was developed for the Department of Social Development by NICRO.

Research by Melanie Dugmore and write-up and illustrations by Talita van der Walt.

2016

Why should you

assess the safety in your community

To solve a problem, you first need to understand what the problem is

A community Safety Assessment gives a safety profile of the community. It describes the situation in the community before we implement any plans. It gives you

- A Baseline to measure your progress against
- Information on the crime problems in your community.
- Information on who is doing what in the community
- What resources is available in the community
- A starting point for planning

If a problem is understood properly, it will ensure that we plan the right projects or actions to target the needs and challenges that exists.

It will help you to

- Identify crime problem(s) in your community
- Analyze the problem(s) and come up with strategies and solutions
- Prioritise problems to focus on

The community safety assessment is the perfect starting point to get community members involved. If people are consulted about the problem, they are more likely to contribute to and participate in the solutions.

Parts of a

community safety assessment

Your Community Safety Assessment can cover as many topics as your team like. It can be small, covering the basics or it can be extensive covering all aspects.

Defining the community (Stakeholders)

Communities are not just groups of people that stay in the same area, it could also be groups with a common interest like groups at a school or workplace or people that live elsewhere but have an interest or investment in the area like business owners, service organisations or government departments.

Defining your community helps you to decide who should be involved or can contribute to your community safety assessment with manpower, resources, perspectives, experience, expertise and insights.

Make sure to identify at least

- People who know something about crime and violence -
Local government, NGOs/CBOs, Faith based organisations, service professionals, academics etc.
- People that are affected by crime and violence -
Victims, community members, traditional leaders, local government, school principals, youth workers, counsellors etc.
- People who come from different cultures
Culture, nationality, language, interest groups etc.
- People who have special needs
People with disabilities, old people, youth, children, women etc.
- People who work in the field of crime
SAPS, Prosecutors, probation officers, parole officers, NGOs, CBOs, Faith based organisations, Shelters etc.

Defining the problem

Tool 02 Key Issue Finder

You may already have some ideas of what the problems are or you want to get a complete picture, either way some research is called for.

- The profile of the community
environment – land use, size, location, economic structure, political situation, infrastructure, demographics – population age, ethnic-cultural composition, diversity, employment
- The nature and extent of crime and violence
offences, frequency, offender, victims etc.
- Safety concerns of community
perceptions of crime, risk factors, vulnerability & of service delivery

Tool 03 Community Map

Defining the services

There are likely already individuals, organisations and government departments in your community that is involved in addressing the root causes of crime and violence.

You will need to determine services levels, ease of access, staff capacity, social crime prevention programs and projects.

Identify

- Local Government departments in your area
SAPS, DSD, Health, Education etc.
- Community Organisations
NGOs, CBOs, Faith Based Organisations, Shelters, Neighbourhood Watch, Private Security etc.

Tool 04 Change Makers

Tool 01 Partner Plotter

What could be

sources of data and information

The following table will give some ideas as to the types and sources of information that can be used.

TYPES AND SOURCES OF DATA AND INFORMATION		
What type of crime and violence occurs in the community?		Potential Sources of Data
■ What forms of violence and crime occurs in this area?	<ul style="list-style-type: none"> ■ What are categories/types of violence ■ Who are victims – profile – age, gender, ■ Who are perpetrators – profile – age, gender, status (unemployed/employed) 	<ul style="list-style-type: none"> ■ Government (SAPS / police station–crime statistics); DOJCD & NPA (data on prosecution trends; DV protection orders, interdicts, child justice matters) ■ DCS (profile of perpetrators from community) ■ DSD (at risk groups)
What is contributing to crime and violence?		Potential Sources of Data
■ What are causes violence ■ What are risk factors	<ul style="list-style-type: none"> ■ Who are victims – profile – age, gender, ■ Who are perpetrators – profile – age, gender, status (e.g. employed, substance abuse related) ■ Where do different forms/types of violence occur – where are hotspots? ■ What time/day of week does violence occur? 	<ul style="list-style-type: none"> ■ SAPS ■ Research data ■ Community input: interviews, surveys
Perceptions safety?		Potential Sources of Data
■ Perceptions of safety people in area (maybe general community, particular groups)	<ul style="list-style-type: none"> ■ Where do people feel safe/unsafe ■ What makes them feel safe/unsafe? ■ What type/types of violence/crime do they fear? ■ Who are they afraid of? 	<ul style="list-style-type: none"> ■ Community input: interviews, surveys
Understanding community dynamics?		Potential Sources of Data
■ Community dynamics	<ul style="list-style-type: none"> ■ What are consequences of violence ■ What are major conflicts in area? What is the conflict/s about? ■ Who is involved in conflicts? ■ For who long have these been going on? ■ What are consequences of conflict on the community? 	<ul style="list-style-type: none"> ■ Community input: interviews, surveys ■ NGOs/CBOs ■ Faith based organisations ■ Stakeholders in government
What are opportunities/ resources to build on?		Potential Sources of Data
■ What interventions are being undertaken in area ■ Government departments ■ Civil Society ■ Community projects,	<ul style="list-style-type: none"> ■ What resources? e.g. ■ Number of police officers deployed ■ Programmes 	<ul style="list-style-type: none"> ■ Community input: interviews, surveys ■ NGOs/CBOs ■ Faith based organisations ■ Stakeholders in government
What structures exist for community engagement? gaps/weaknesses		Potential Sources of Data
■ What structures exist in area for community engagement: ■ Government departments ■ Civil Society/ NGOs /CBOs ■ Community ■ Faith Based	<ul style="list-style-type: none"> ■ Area ■ Focus ■ Drivers ■ Strengths and Weaknesses 	<ul style="list-style-type: none"> ■ Community input: interviews, surveys ■ NGOs/CBOs ■ Faith based organisations ■ Stakeholders in government
What needs to be done to address crime and violence in this community		Potential Sources of Data
■ What are solutions?	<ul style="list-style-type: none"> ■ What works? ■ What can be built on? ■ What can be developed? 	<ul style="list-style-type: none"> ■ Experts: best practice/what works/models/tools ■ Practitioners working in the community can identify where interventions are required/ gaps etc. ■ Communities input

Remember the information you gather can be

Objective data – Empirical data: statistics on reported crime and violence; victims and perpetrators' gender, age and other relevant data.

Subjective data – feelings of safety/ unsafety; perceptions of crime and safety.

The one is not more or less valid than the other, it is just important to note which one you are gathering as you will interpret it differently.

E.g. someone may feel that EVERY house in their street is robbed EVERY month.

This tells you the person feels (subjective) unsafe and threatened. – This is the person's reality despite what the crime statistics (objective) of the police says.

If you want to know the actual incident of house robberies – get statistical information from an objective data source

How to

collect the data and information

Methods for data collection is informed by the time and resources you have available .

Your local context including the availability of resources and time, will inform the methods you will use to collect data. Try to use a combination of methods to collect your data.

Community Participation Workshops

Workshops offer the benefit of diverse people and interest groups interacting and contributing to the full picture of the situation in the community. The same people can then help to plan, implement and monitor social crime prevention initiatives.

When you have groups of people together, the following structure could be used to collect data and information.

Workshop 1 - Exploration

Use tool # 07 Exploration Workshop

& tool # 01 Partner Plotter

& tool # 02 Key issue finder

& tool # 03 Community Map

- Organise a one day community Participation workshop to pinpoint stakeholders, problem areas and services in the community.

Tool 07 Exploration Workshop

Task Team Meeting 1

Use Tool # 05 Community Assessment Plan.

& tool # 04 Change Makers

- Develop a plan to process the information.

- Execute the Community Assessment Plan

Tool 05 Community Assessment Plan

Task Team Meeting 2

Use Tool # 06 Community Safety Profile Template

- Organise and analyse data and information that was Collected using the template as a guide.

Tool 06 Community Safety Profile Template

Workshop 2 - Safety Visioning Workshop

Use tool # 08 Safety Visioning Workshop

& tool # 09 Formulating Objectives

- Organise a one day community Participation workshop to develop a shared vision and goals for Community Safety.

Tool 08 Safety Visioning Workshop

Tool 09 Formulating Objectives

Decide what information you want to present in your Community Safety Profile and then make sure that you ask enough questions in your research/ surveys/ interviews/ workshops/focus groups to get the information.

See Tool 06

Diagrams and illustrations

Organising material in graphs, tables and visuals to demonstrate:

- trends in crime and violence by time & events
- interest groups;
- risk factors;
- who is the Stakeholder and what they are doing
- existing services and levels of access (Government, Civil society and Community Organisations

Safety walks

Visiting the site where a problem is occurring may provide insights to the group of what is contributing to the problem. Make sure your group consist of diverse stakeholders including law enforcement stakeholders that may point out obvious problems.

Literature and Data research:

This means that you read up on research that was done on crime and violence. Information is available from state institutions (Statistics SA, HSRC, MRC), government departments, research institutions (HSRC, MRC, Universities) and civil society organisations (NGOs, CBOs, faith based organisations, business)

Surveys (questionnaire)

This is the most systematic way to gather information. You will have to develop questions you want to ask. Consider what you want to know about the community, crime and safety and then develop questions that will answer it.

Interviews and telephone interviews

Talk to experts in the field, stakeholders, community leaders. Prepare a questionnaire and use it as the basis for your interview. If you ask the same questions to everyone, it will be simple to summarize your results.

Focus groups

This is also a type of interview with specific groups of people in the community e.g. ladies, young people, police officers, people with disabilities etc. You will need a questionnaire and people that are experienced in facilitating groups to do focus groups.

What to include in the format of your Community Safety Assessment

What do you want to know?

The format of your community safety assessment is dependant on what you want to know. Ask yourself: "What questions do I want to answer?" Depending on the focus of your community assessment, the data you require will vary, but it should cover at least the following topics in some degree in order to develop a Community Safety Action Plan that is efficient and effective.

- **The profile of the community.**
environment – land use, size, location, economic structure, political situation, infrastructure
demographics – population age ethnic-cultural composition, diversity, employment
- **The nature and extent of crime and violence**
What are the offences (crime and violence) that are committed most in the area, frequency, offender, victims etc.
- **Safety concerns of the community**
How do the community perceive crime, risk, vulnerability and service delivery
- **Available resources or Service Providers**
Who provides services (Government and Non-government) is it easy to use and accessible to the community. Is there enough service providers with adequate and equipped staff. Services include areas like Safety and Security (like Police), Justice, Health, Education, Municipal, Special needs, Housing, Welfare and so on
- **Social Crime prevention related interventions** and programmes that are already being implemented
- **Stakeholders** – government and non-government - roles, capacities and resources

Communities that participate in Community Safety Assessments are more likely to engage in solutions.

How to

write a Community Safety Profile

Make the information gathered in the Community Safety Assessment easy to understand and use.

The reason you write a Community Safety Profile is to make the information you have gathered during your Community Safety Assessment easy to understand and useable for all stakeholders in the community.

- Use visual illustrations to present results: photos, diagrams and graphs
- Keep it simple and brief and plain language
- Include a brief Executive Summary

Structure the Safety Profile to include relevant data

- **Establish community context**
overview of area, environment, demographic, economic
- **Analysis of crime and violence**
scale, trends and distribution
- **Profile victims and perpetrators**
age, gender ethnic, cultural socio economic patterns
- **Risk factors for crime and violence**
Investigate patterns of risks factors
- **Assess effectiveness of projects and services**
health, safety (including policing), housing, welfare, education in relation to prevention
- **Identifying opportunities**
strengths of area social capital, civil society and existing projects on which future strategies can be built.

Baseline data tells us what it looks like before we implement projects.
EG. Baseline is 45 housebreakings p/m. We then educate people how to make their homes difficult targets. After 6 months we can check the amount of housebreakings to see if we have made a difference.

Tool #01

Partner Plotter

When do you use it?

find out who cares about your community by defining who has an interest or investment

Communities are not just groups of people that stay in the same area, it could also be groups with a common interest like groups at a school or workplace or people that live elsewhere but have an interest or investment in the area like business owners, service organisations or government departments.

Defining your community helps you to decide who should be involved or can contribute to your community safety assessment with manpower, resources, perspectives, experience, expertise and insights.

How to use it?

Come up with as many names as possible to complete each column. You can do this exercise on your own or with small teams or even in small groups at a community participation workshop. The more people you are that work on the worksheet, the more ideas you will have.

Remember there is no right or wrong answers. Just come up with as many ideas as possible. When you plan, you can decide who to use or not to use.

Next step: appoint someone to get the contact details for each of the people listed on your tool.

Tool #01 Partner Plotter

People who know something about crime and violence	People that are affected by crime and violence	People who care from different cultures	People who work in the field of crime and violence
Local governments, NGOs, CSOs, faith based organisations, service providers, academics etc.	Victims, Community members, Traditional leaders, Local government, School principals, Youth Workers, Businesses etc.	Culture, Nationality, Language, Interest groups etc.	SAs, Prosecutors, Police officers, Paralegal officers, NGOs, CBOs, Faith Based Organisations, Susten et c.

Who can use it?

- Individuals
- Groups or Teams
- Workshop Facilitators

TOOL #1 Partner Plotter

find out who cares about your community
by defining who has an interest or investment

**People who know something
about crime and violence**

Local government, NGOs, CBOs, Faith based organisations, service professionals, academics etc.

**People that are affected
by crime and violence**

Victims, Community members, Traditional leaders, Local government, School Principals , Youth Workers, Businesses etc.

**People who come from
different cultures**

Culture, Nationality, Language, Interest groups etc.

People who have special needs

People with disabilities, old people, youth, children, women etc.

**People who work in the
field of crime and violence**

SAPS, Prosecutors, Probation officers, Parole officers, NGOs, CBOs, Faith Based Organisations, Shelters etc.

TOOL #02

Key Issue Finder

find out what are the key issues in your community by compiling available information.

When do you use it?

You will already know quite a bit about the problems in your community. This tool will help you find the key issues that need further investigation and assessment. Use it before you design your community assessment survey, questionnaire or interview guidelines. And before you have a community participation event. It will help you focus discussions on key issues that is relevant in your community.

How to use it?

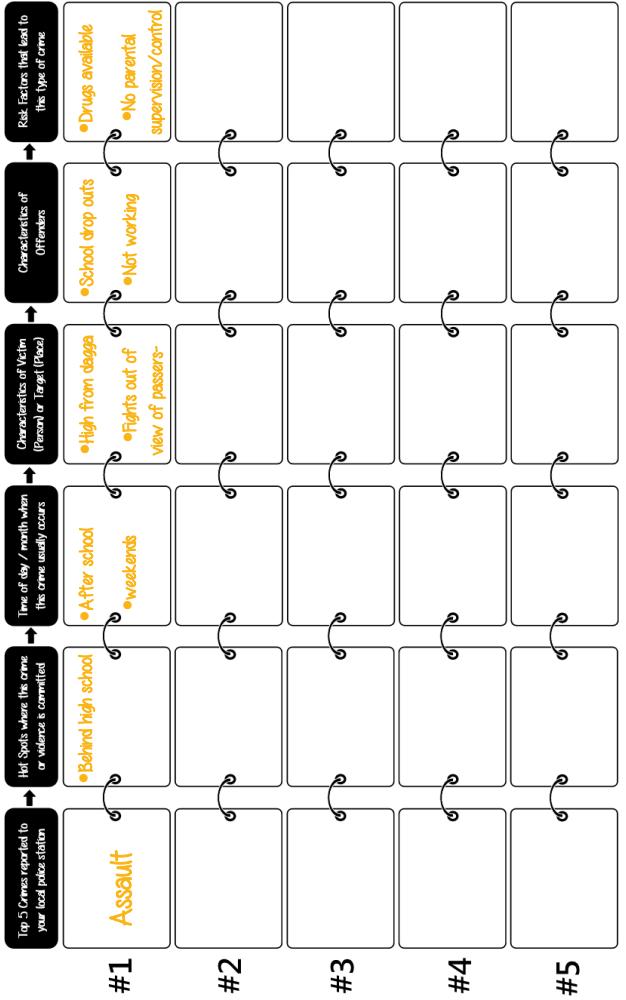

Ideally this is a group tool. Gather a team consisting of people from your local SAPS office, your district court, probation, private security firms and community members. The more people you are that work on the worksheet, the more ideas you will have.

In the first column, write down the top 5 crimes in your community. You can find out what is the top 5 crimes at your local police station or on the internet. SAPS Crime Statistics @ http://www.saps.gov.za/resource_centre/rc_index.php. The website of the Institute for Security Studies @ <https://www.issofafrica.org/crimehub/stats> have many user friendly tools to access stats per police station.

Moving vertically complete the rest of the blocks for each crime. See example below. You can do this exercise on your own or with small teams or even in small groups at a community participation workshop. Remember there is no right or wrong answers. Just come up with as many ideas as possible.

Next step: together with the group, decide where you need more information and then include it in your community assessment survey, questionnaire, interview guidelines or community participation workshop.

Key Issue Finder helps you define the problem areas in your community that needs further exploring.

Who can use it?

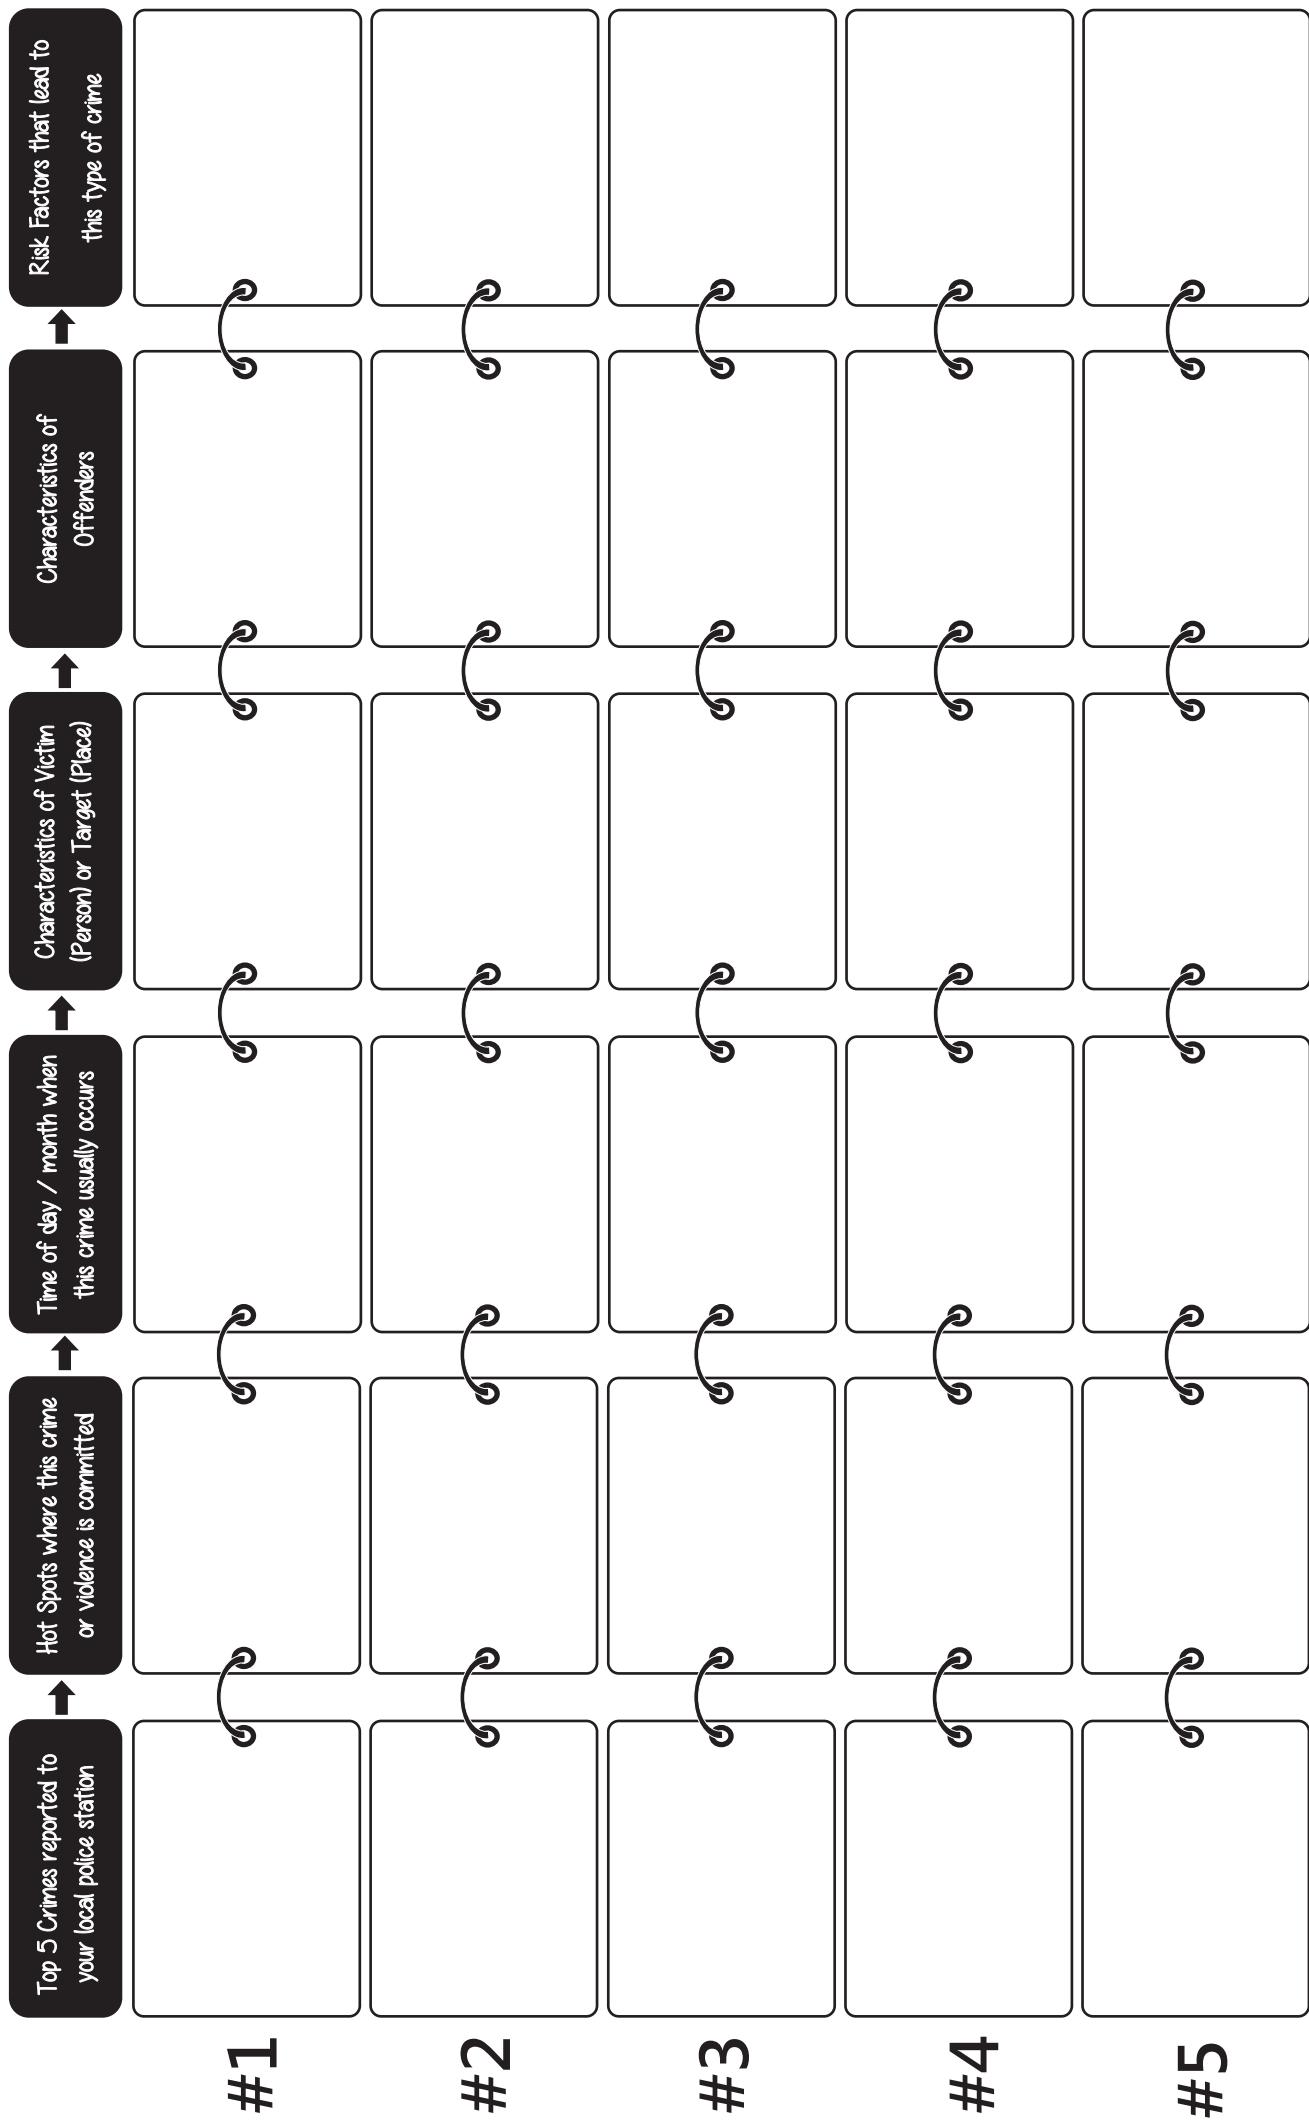

- Individuals (works better with groups)
- Groups or Teams
- Workshop Facilitators

TOOL #2 Key Issue Finder

find out what are the key issues in your community by compiling available information.

by compiling available information.

TOOL #03

Community Map

When do you use it?

People's perception of the community can give a wealth of information that can not be obtained through empirical data such as stats and data. It can reveal areas people avoid or use often, areas that is important or areas that can be developed.

explore how people experience their environment by mapping the profile, concerns and services

It is a cheap and easy tool to use with young or old. The only requirement is that you have a facilitator and someone to take notes.

Community Map helps you get perspective on the community, how participants use and access resources and where they feel safe/unsafe.

You need:

- Venue - in the community that is easily accessible for all
- Participants - invite diverse people (20-30)
- Half-day (5 hours)
- Community Map handout (next page)
- Big papers - flip chart paper or unprinted news paper (1 per group)
- Coloured Markers or crayons
- Masking tape (doesn't leave marks) to stick maps to wall
- Space to draw. Younger people could use the floor but older people will need tables

Step 1 - Frame and explain the exercise

"We are going to be drawing our community so that we can better understand what it offers and what it's problems are". Assure participants that this is a fun activity and that there is no right or wrong. That there is many people present because we need many different ideas and perspectives.
Divide participants in groups of 4-6 and give each group a paper and set of markers.

Step 2 - Establish a starting point

Ask the big group what the center of their community is. Once the group agrees, ask them to make a mark in the middle of the paper representing that central point. Next ask them to mark the location of this venue (where you are doing the exercise). Thirdly ask them to each mark the location of their own house.

Step 3 - Draw community

Participants continue to draw their map using the prompts on the handout (next page)

Step 4 - Feedback to big group

Ask each group to send a representative to give feedback. Stick map on wall.

Step 5 - Big group discussion

Ask a few questions (helper to take notes)

- What is most obviously the same in all the maps
- What is most obviously different in all the maps
- What have you learned about your community by drawing the map

Who can use it?

- Individuals (works better with groups)
- Groups or Teams
- Workshop Facilitators

TOOL #03 Community Map

Handout

Draw the Map

- Decide in your group what is the middle point of your community and then draw a picture of it in the middle of your paper.
- Next let each group member mark where their own house is (or office or place of business etc)
- Next draw the main roads going through the community.
- Add rivers, trees and parks (if any)
- Draw neighbourhoods - you can maybe use different pictures to show if it is RDP houses, shacks, brick houses and so on
- Show taxi and bus stops or any other public transportation

Try to add as many of the following items as possible.

- Schools - pre-school, primary schools, high schools and any other place of learning
- Health services - clinics, hospitals, HIV Counselling, Family Planning, Pregnancy Services
- Government services in your area - SAPS, DSD, SASSA, Court etc.
- Services to your community - NGOs, CBOs, Faith based organisations, shelters, Places of Safety, Children's Homes, Counselling etc.
- Shops - food, clothes, etc. Chain stores? liquor stores, shebeens
- Churches or religious places - which?
- Places where you spend your free time (for kids, youth & teens), sports fields etc.
- Any other places that is important in your community

Mapping out safety concerns

- Mark with a black dot (●) Where crime/ violence occurs
Make a note which type of crime/violence?
- Mark with a green dot (●) places where you feel safe in the community
Make a note if it is different for day and night time
- Mark with a red dot (●) places where you feel unsafe in the community
Make a note if it is different for day and night time

- Mark with a blue block (■) places where you enjoy spending time of learning
- Mark with a yellow star (★) places, organisations or institutions that are most important
Make a list of places, organisations or institutions that is needed in your community

NB. You are the expert of your community and we value your ideas and opinions. Thank you so much for your participation.

Change Makers

When do you

When do we use it?

Change Makers

There are likely already individuals, organisations and government departments in your community that is involved in addressing the root causes of crime and violence. Tool # 01 The Partner Plotter identified who is working or know something about the field of crime and violence in your community.

Now you want to find out what social crime prevention programs and projects they offer, what is their capacity and is their service easy to access.

find out who is doing what in your community by surveying stakeholder projects and programs

How to use it?

You need a representative of the organisation or institution to help you complete this tool. Use a new sheet for each place you complete this tool for. The more people you are that work on the tool, the more ideas you will have.

Questions about accessibility. When there is little blocks () you have to make a mark ONLY if the statement applies to the organisation. If the statement does not apply, just leave it blank.

find out who is doing what in your community by surveying stakeholder projects and programs

Change Makers helps determine what Social Crime Prevention Programs and Projects are offered in the community and to what extend it can resource.

Next step: Make a summary of all the Projects, Programs and Services in your community.

<h1>Who can use it?</h1> <p><input checked="" type="checkbox"/> Individuals</p> <p><input checked="" type="checkbox"/> Groups or Teams</p> <p><input checked="" type="checkbox"/> Workshop Facilitators</p>

Who can use

۲۰

- Individuals
- Groups or Teams
- Workshop Facilitators

Safe Communities Toolbox

community safety assessment tools

ISCP5 Focus areas	
1. Families	5. Domestic violence & family environment programmes to reduce crime prevention programmes (e.g. Deterior)
2. Early Childhood Development ECD	6. Violence against children and young people
3. Social Assistance & Support for pregnant women & girls	7. Community-based interventions to reduce child abuse and neglect
4. Health	8. Dealing with mental health issues among children and adolescents
	9. Violence against women and their children
	10. Social media prevention programmes
	11. Strengthening public and private sector responses
	12. Advocacy
	13. Governance, prevention, reduction & law enforcement

Change Makers

find out who is doing what in your community by surveying stakeholder projects and programmes

15 #100

When do you
use it?

Community Assessment Plan

cover all aspects of your
Community Safety
Assessment
by planning task
allocation and deadlines

How to use it?

A few steps are already listed on the Community Assessment Plan. Complete these by allocating the task to a specific person/s on the task team and deciding on a deadline.

Discuss other tasks that need to happen and list them in similar fashion. You can make more copies of the tool sheet if it is needed.

You have defined your partners, the problem and services in the community. You already know what else you want to know and are now ready to plan to gather the information

Community Assessment

Plan helps you plan tasks and deadlines

Who can use it?

- Individuals
 - Groups or Teams
 - Workshop Facilitators

Safe Communities Toolbox

community safety assessment tools

Community Assessment Plan

cover all aspects of your Community Safety Assessment by planning task allocation and deadlines

Task - What must be done?	Who will do it?	By when	Done
Compile information* contained in Tool # 01 and find a telephone number for each			
Compile information* contained in Tool # 02			
Compile information gathered with Tool # 03			
Make a list of all stakeholders identified in Tool # 01 and Tool # 03 . Divide stakeholders between task team members. Complete a Tool # 04 for each stakeholder .			
Compile information gathered with Tool # 04			
Compile a list of issues that need to be assessed further			
Decide on ways to gather the information listed, design the method and gather the information			

TOOL #06

Community Safety Profile Template

make the information you gathered accessible by writing a summary that is easy to understand and use

When do you use it?

When you have completed your community Safety Assessment you need to write a Community Safety Profile to make the information you have gathered during your Community Safety Assessment easy to understand and useable for all the stakeholders in the community.

You need to write it before you start any projects so that you can use the information as a baseline to measure progress and success against.

Community Safety

Profile helps you summarise Community Safety Assessment information in a format that is usable and easily understandable.

How to use it?

Knowing who the audience is will determine

- The information included and length of the report
 - The language use, structure and tone of the report
- Ask some of these questions to start thinking about the audience
- How much time will they have to read your report?
 - Why does the reader need this report/ what is the goal & purpose?
 - What does the reader need to know to make an informed decision?
 - What is the desired response to your report?

If you aim to engage the community, the Community Safety profile should be easy to use and understand by anyone.

This template could be used as it is, or if you want to include more information per heading, the structure could be used.

On the first page, complete the form by following the prompts on the left hand side. Some of these topics could be discussed at great length for internal purposes, but for outside use try to keep it brief.

There is 5 Quick Facts - sheets. One for each of the top 5 crimes Recorded by SAPS in your community. For each one of these 5 crimes complete their own sheet.

Write down the name of the crime, how many cases was reported to the local police station in the last year and mark which *category of crime it is.

Trend: SAPS have 10 year stats on each crime. On the left hand side write the number of cases 10 years ago and so on until the latest figure is on the far right hand. If you have someone that understands graphs, it could be nice if you draw a graph here.

Next list the 5 Hotspots for this type of crime in your community. For each of the 5 discuss the Location Profile and timing in the corresponding blocks under it.

In the following two blocks discuss the profile of victims and offenders.

Lastly complete the *risk factors blocks. Although risk factors have been shown to be applicable internationally, your community will have its own unique set of risk factors that are at the root of crime and violence.

*information on **categories of crime** and **risk factors** can be found in the Safe Communities Toolbox booklet 1.

On the last page is 13 blocks. One for each focus area of the ISPCS. Either write the name of the organisations or departments that have projects or programs in these areas or just write down a number, e.g. 3 organisations works with building families.

The aim is to see at a glance what services is missing or underserviced in your community.

Community Safety Profile

Name of your Community

Task Team Members

Background:

Why was the assessment done?

Methods:

How was the information collected?

Describe the Community:**Environment**

What does it look like in this community?

(land use, size, location, economic structure, political situation, infrastructure)

Demographics**Safety Concerns:**

What issues is of great concern to the community?

Quick Facts on the #1 Offence

Offence:

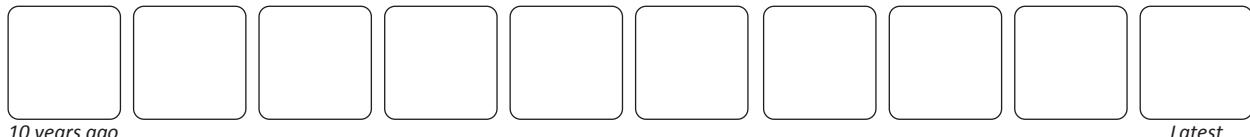

Incidents per year:

Latest

- This is a contact/contact related crime
- This is a property crime
- This is a crime detected by police action
- Other

Trend:

Number of Cases recorded by SAPS

Hotspots:

Top 5 places where this offence is committed

Location Profile:

What factors created an opportunity for the crime?

Timing:

Any trends in terms of time of day, week, month or year.

Victim Profile:

(age, race, sex, address occupation etc.)

Offender Profile:

age, race, sex, address occupation, criminal record,

Individual

Family

Peer

School

Community

Risk Factors:

Negative influences, Root causes likely to increase this

Quick Facts on the #2 Offence

Offence:

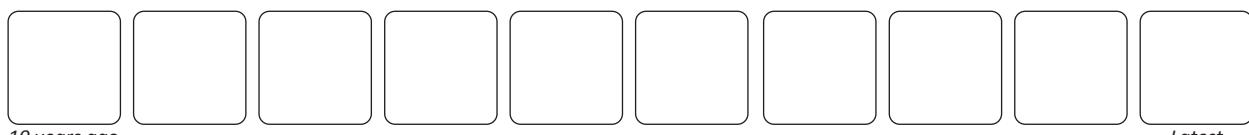

Incidents per year:

Latest

- This is a contact/contact related crime
- This is a property crime
- This is a crime detected by police action
- Other

Trend:

Number of Cases recorded by SAPS

Hotspots:

Top 5 places where this offence is committed

Location Profile:

What factors created an opportunity for the crime?

Timing:

Any trends in terms of time of day, week, month or year.

Victim Profile:

(age, race, sex, address occupation etc.)

Offender Profile:

age, race, sex, address occupation, criminal record,

Individual

Family

Peer

School

Community

Risk Factors:

Negative influences, Root causes likely to increase this

Quick Facts on the # 3 Offence

Offence:

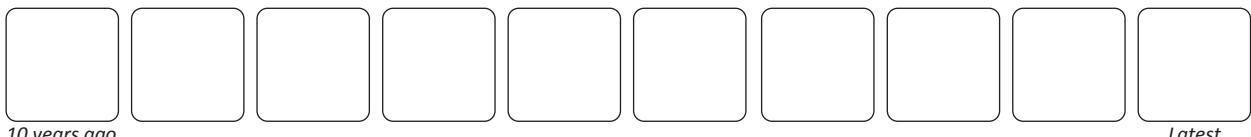

Incidents per year:

Latest

- This is a contact/contact related crime
- This is a property crime
- This is a crime detected by police action
- Other

Trend:

Number of Cases recorded by SAPS

Quick Facts on the # 4 Offence

Offence:

Incidents per year:

Latest

A large, empty rectangular box with rounded corners, intended for children to draw or write in.

- This is a contact/contact related crime
 - This is a property crime
 - This is a crime detected by police action
 - Other

Trend:

A horizontal row of ten empty rectangular boxes, each with a thin black border. The first box contains the text '10 years ago' and the last box contains the text 'Latest'.

Hotspots:

A horizontal row of five identical rectangular boxes. Each box has rounded corners and a thin black outline. A small, simple black hook is centered at the bottom of the middle vertical edge of each box.

Location Profile:

*opportunity for
the crime?*

Timing:

A horizontal row of five identical, empty rounded rectangular containers. Each container has a thin black outline and a slightly recessed center, giving it a three-dimensional appearance.

Victim Profile:

*(age, race, sex,
address
occupation etc.)*

Offender Profile:

*age, race, sex,
address
occupation,
criminal record,*

Individual

Services per ISCPS focus area

Names of organisations, individuals and government Departments that are rendering services, projects and programmes in each of the ISCPS focus areas.

		Families
Early Childhood Development	Support Pregnant Women & Girls	Child Abuse, Neglect
Domestic Violence VEP	Victim Support	Community Mobilisation
Substance Abuse	HIV/AIDS & Feeding Schemes	Social Crime Prevention (Diversion)
Extended Public Works Programs	Schooling	Gun violence Prevention

TOOL #07

When do you use it?

Exploration workshop

Finding a starting point for your Community Safety Assessment can be daunting. There is so many possible things that could be investigated.

This community participation workshop use the community as experts of their environment to pinpoint issues that can be explored.

Some issues will be explored on the day, others will be identified and then explored by a task team after the workshop.

pinpoint stakeholders, problem areas and services in the community by facilitating the participation of community members

Before

Identify Facilitators: you will need an experienced facilitator to facilitate a community participation workshop. In addition you need a co-facilitator to take notes of the group discussions and feedback. The facilitators need to prepare by

- Reading the 5 booklets in the Safe Community Series
- Reading the tools and instructions for this workshop (this sheets)

Identify Participants: Use Tool #01 Partner Plotter as a guideline to identify as many people as possible to attend the Day 1 Workshops. (At least 5 per category)

Identify Venue: find a venue that is in the community

Workshop Arrangements: make necessary arrangements for workshop e.g. refreshments, meals, stationary, relevant copies of toolbox and tools, arrange for facilitator and 2 or 3 note takers. (Remember to check for special needs of people with disabilities)

Get Statistics: find out what is the top 5 crimes in this community from the local SAPS or internet.

Exploration Workshop use
community members to pin point stakeholder, problem areas and services in the community

You will need

- A copy per participant of the first (red) booklet in the Safe Communities Toolbox. 1. Crime and Violence Prevention for Communities
- Pen per participant
- Registration form and name stickers
- 10 copies of Tool #01 Partner Plotter
- 10 copies of Tool #02 Key Issue Finder
- 10 copies of Tool #03 Community Map
- Flip chart papers or unprinted newspaper roll ends (ask at your local newspaper)
- Masking tape
- Coloured markers or crayons

Who can use it?

- Individuals
- Groups or Teams
- Workshop Facilitators

Safe Communities Toolbox

community safety assessment tools

- Pens and notepaper for co-facilitators (note takers)
- Box and 3 Big envelopes to collect tool sheets and maps used in the workshop
- Lunch for Participants
- Water and tea and coffee available somewhere in the room

TOOL #07

Exploration workshop

pinpoint stakeholders, problem areas and services in the community by facilitating the participation of community members

Set the scene:

30 minutes

- Give each participant a copy of the first booklet in the Safe Communities Toolbox. 1. Crime and Violence Prevention for Communities.
- Set the scene for the day by doing a 30 minute presentation on the concepts in the booklet.

Define the Problem:

90 minutes

- Use Tool # 02 Key Issue Finder.
- Divide participants into small groups of ± 5 people.
- Ask participants to list (in the light of the day's exercises) what else we need to find out to understand the problem of crime and violence in this community so that we can come up with strategies to deal with it.
- Give them the stats on the top 5 Crimes in the community.
- Let each small groups complete the tool by brainstorming ■ Feedback to bigger group.
- Note takers to collect sheets from each group and compile a combined list

Define what needs to be assessed further:

30 minutes

- Divide participants into small groups of ± 5 people.
- Ask participants to list (in the light of the day's exercises) what else we need to find out to understand the problem of crime and violence in this community so that we can come up with strategies to deal with it.
- Ask random feedback. note takers to take notes
- Collect lists from group

Use Tool # 01 Partner Plotter.

- Divide participants into small groups of ± 5 people.
- Make sure they understand the concept of brainstorming.
- Let each small groups complete the tool by brainstorming ■ Feedback to bigger group.
- Note takers to collect sheets from each group and compile a combined list

Define the Services:

120 minutes

- Ask participants to nominate 5-10 people to process the information that was gathered during the day. Confirm that the nominees are willing to serve on the task team, if not, ask for another nominee. Try to include people that work in the field of crime and crime prevention on the task team.
- Feedback to bigger group.
- Note takers to take notes on feedback.
- Collect Maps

Elect task team:

30 minutes

- Ask participants to list (in the light of the day's exercises) what else we need to find out to understand the problem of crime and violence in this community so that we can come up with strategies to deal with it.
- Give them the stats on the top 5 Crimes in the community.
- Let each small groups complete the tool by brainstorming ■ Feedback to bigger group.
- Note takers to take notes
- Collect lists from group

Tool # 08

When do you use it?

Safety Visioning workshop

You have had an exploration workshop where you have identified stakeholders, problem areas and services in the community. A task team have developed and implemented a Community Assessment plan. They have analysed and sorted the data and now have a Community Safety profile to present to the community.

develop shared vision and goals for community safety by facilitating the participation of community members

safety visioning

Workshop use community members to develop a shared vision and goals for Community Safety

You will need

- Reading the 5 booklets in the Safe Community Series
- Reading the tools and instructions for this workshop (this sheets)
- Identify Participants: invite all the people that attended the 1st Exploration workshop and invite all partners and stakeholders that was identified with Tool # 2 in the 1st Workshop.
- Identify Venue: find a venue that is in the community
- Workshop Arrangements: make necessary arrangements for workshop e.g. refreshments, meals, stationary, relevant copies of toolbox and tools, arrange for facilitator and 2 or 3 note takers. (Remember to check for special needs of people with disabilities)
- Coloured markers or crayons
- Notepaper for participants to write discussions and feedback on
- 4-5 different colours of sticky notes
- Pens and notepaper for co-facilitators (note takers)
- Box to collect tool sheets and maps used in the workshop
- Lunch for Participants
- Water and tea and coffee available somewhere in the room

Before

Identify Facilitators: you will need an experienced facilitator to facilitate a community participation workshop. In addition you need a co-facilitator for every 20 people to take notes of the group discussions and feedback. The facilitators need to prepare by

- Reading the tools and instructions for this workshop (this sheets)
- Reading the 5 booklets in the Safe Community Series

Identify Participants: invite all the people that attended the 1st Exploration workshop and invite all partners and stakeholders that was identified with Tool # 2 in the 1st Workshop.

Identify Venue: find a venue that is in the community

Workshop Arrangements: make necessary arrangements for workshop e.g. refreshments, meals, stationary, relevant copies of toolbox and tools, arrange for facilitator and 2 or 3 note takers. (Remember to check for special needs of people with disabilities)

Who can use it?

- Individuals
- Groups or Teams
- Workshop Facilitators

TOOL #00

Safety Visioning workshop

develop shared vision and goals for community safety
by facilitating the participation of community members

1. Develop a common Vision

60 minutes

- Divide participants into small groups of ± 5 people. Give them big papers and coloured markers or crayons and ask them to imagine that it is now 10 years later and their community is the safest, crime free community in this country. Ask them to draw, write or symbolise what the community would look like.
- Feedback to bigger group. Stick each map to the wall and leave it there.
- Note takers to take notes of feedback and compile a combined list.

4. Goals and Strategies brainstorm:

90 minutes

- Do a sticky note brainstorm. On the walls put 3 big papers in different areas.
- Paper one write a heading: Victim Based Strategies
- Paper two write a heading: Offender Based Strategies
- Paper three write a heading: Environment Based Strategies
- Frame the exercise by telling participants that they now know what they want their community to look like (maps from fist exercise) they also know what is the problems at the moment and who is the partners already doing some things, (presentation on Community Safety Profile). We now want to find the things we as a community can do to get from how it is now to the desired future that was drawn on the maps.

5. Develop the Goals:

30 minutes

- Use Tool # 09 Formulating Objectives.
- Divide participants into six groups.
- Follow instructions on the Tool.
- Let each small groups complete the tool by brainstorming feedback to bigger group.
- Note takers to take notes on feedback.
- Collect tools

2. Present Community Safety Profile:

30 minutes

- Give each participant a copy of the Community Safety Profile
- Present the information in the Community Safety Profile in

30 minutes

3. Safety Profile Discussion

60 minutes

- Divide participants into small groups of ± 5 people ask them to discuss the Community safety profile using the following three questions

1. What information surprised you most
2. What information did not surprise you at all
3. Is there any information in the Community Safety Profile that is inaccurate.

- Feedback to bigger group

- Note takers to collect sheets from each group and compile a combined list

6. Elect task team

30 minutes

- Ask participants to nominate 10-15 people to develop a Community Safety Action Plan. Confirm that the nominees

30 minutes

- are willing to serve on the task team, if not, ask for another nominee. Try to include people that work in the field of crime and crime prevention on the task team.

- Give each group 2 stacks of their relevant colour sticky notes and a pens. Explain the group have to come up with ideas of what can be done to make their community a safe community. Each idea is written on a separate sticky note and someone goes and sticks it on the wall under the relevant category. The group with the most sticky notes (under all three headings) win! (maybe they can be in the front of the lunch que)

- Once the brainstorm is completed, each participant have to vote for their two favourite ideas on each of the three papers (6 votes) by making their initial on the sticky note.

- Facilitator count votes and stick sticky notes in order of most votes to least votes.

Tool #00

Formulating Objectives

When do you use it?

Someone once said: If you don't know where you are going, how will you know that you got there?

formulate smart objectives by describing exactly what you want to achieve

Well formulated objectives lead to successful measurable projects.

When you have established what are the priority issues you want to address in your community, you need to formulate an objective for each one of these priorities

How to use it?

Complete a "Formulating Objectives Sheet" for each objective.

Before you start, ask yourself the following questions:

- What is the problem you want to fix
- Is there anything that can be changed in the environment to stop or reduce the problem
- What behaviour needs to change (of the victim or the offender) to stop or reduce the problem.
- Who is already working towards this same objective or can assist.

Follow the prompting questions on the top of each block.

Do not complete the blocks in sequence, e.g. you will only know what resources you need once you know what activities you are going to do. This sheet has space for three activities to reach the objective. If you want to add more activities, simply use another sheet and staple the two together.

See the Safe Communities Toolbox Book 5 Tracking the progress and success of Community Projects for information on the concepts in this tool

Developing Objectives

helps you describe what you want to achieve

Safe community		Objective:		Reduce the amount of car accidents due to DUI by 5 per month by end of march	
Influences	Inputs	Outputs	Responsibility	Monitoring	Outcomes
Problem or issue What is the problem or issue we want to address: Lots of car accidents due to DUI	Activity: What do we need to do to address the problem? Increase law enforcement	Target: Who is the result or product of your activity? SAPS	Performance Indicator: How can we check that we are actually improving? Less car accidents due to DUI	Short Term Outcome: Benefits to target group because of the activity Police starts	Long Term Outcome: Changed community Young people empowered to make better decisions
Human Resources Police officers	Human Resources traffic officer	Inputs What resources do we need to do the project effectively? SANCA	When End October	When By when	When By when
Material Resources SANCA	Material Resources Internet to do research for talk	Outputs What is the result or product of your activity? Bursts of shebeens roadblocks	Who SAPS	Outputs What is the result or product of your activity? Educational Talks at 2 high schools	Outcomes Benefits to target group because of the activity Number of talks
1	2	3	When By when	When End January	Outcomes Benefits to target group because of the activity Number of young people reaches
					Medium Term Changes in Individuals/Groups Less DUI because less young people drink and drive
					Long Term Outcome: Changed community Less DUI because less young people drink and drive

Who can use it?

- Individuals
- Groups or Teams
- Workshop Facilitators

Safe Communities Toolbox

community safety assessment tools

Goal:

A goal is the big picture, what you want to achieve with many projects

For us it is: a Safe Community

Objectives:

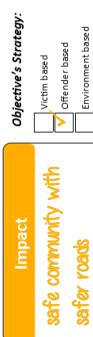

Each objective is a step you need to take reach the goal

Activities:

Are the different things we do or deliver (produce) to achieve the objective

Indicates the original material is from the Safe Communities Project

TOOL #9

Formulating Objectives

Goal: *Safe community*

Objective:
Who will make what change, by how much, where and by when

Influences

Problem or issue
What is the problem or issue we want to address?

Inputs
What resources do we need to do the project activities?

Human Resources

Material Resources

Activity:
What do we need to do to address the problem?

Target:
Who or what will benefit

Output:
What is the result or product of your activity

Outputs

Responsibility
Who is responsible to do this by when?

Monitoring

Outcomes
*Performance Indicator:
How can we check that the activity happened?*

Short Term Outcome:
Benefits to target group/place because of the activity

1

2

3

Medium Term Outcome:
Changes in Individuals/spaces

Long Term Outcome:
Changed Community

Objective's Strategy:

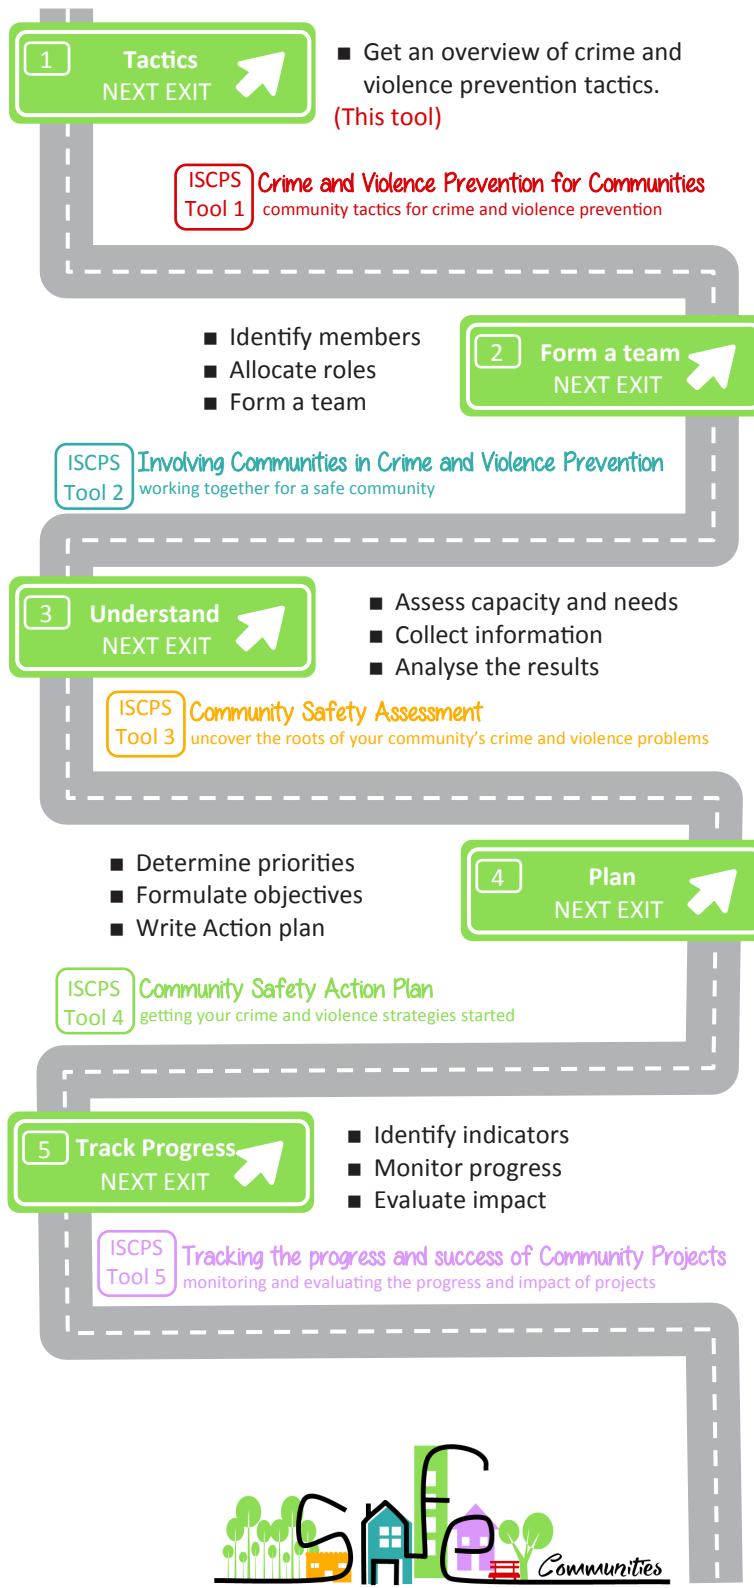

- Victim based
- Offender based
- Environment based

Impact

formulate smart objectives
by describing exactly what you want to achieve

How to get to a safe place

"If you don't know where you are going, you won't know when you get there".

Safe Communities

toolbox

The Safe Community toolbox was developed by DSD as a tool to implement South Africa's Integrated Social Crime Prevention Strategy (ISCPS).

The toolbox is divided into 5 tools that each addresses a part of the process of developing and implementing a community Safety Action Plan.

Tool 1 - Gives an understanding of Crime Prevention and the process of making communities safe.

Tool 2 - Gives information, advise and tools on working together.

Tool 3 - (this tool) Gives information and tools on how to do a Community Safety Assessment.

Tool 4 - Gives information and tools on developing a Community Safety Action Plan.

Tool 5 - gives information and tools on monitoring and evaluating projects.

The tools are available to anyone that wants to initiate a project in their community. It can be used as a resource or as information pieces for interested parties.

In addition to this toolbox, DSD also have training material that gives more in-depth information on all the topics covered in this toolbox.

Contact your nearest DSD office for more information and tools.

Ask for the District Social Crime Prevention Functionary
